COVER LETTER

I am Bianka Marinova and I am applying for the position of marine biologist in your company. I found information about the job in a site called indeed.com.

I would like to take the work because I really like marine animals and helping them in one way or another. I enjoy making different researches in marine biology and I like the idea of travelling to many different places on Earth and exploring them. Unfortunately I have no previous experience in the job, but I am sure I will deal with it because I am quite motivated and positive person.

It would be pleasure for me, meeting you in person on an interview and telling you more things about myself.

Sincerely,
Bianka Marinova
