A REFERENCE LETTER

My name is Tautvydas Stoskus and I'm applying for a job as a commercial diver. I have found the information about this profession on the internet.

I think I would be a good candidate to get this job because I am really good at diving. I am a good swimmer and a proficient user of diving devices. I like water sports and activities under the water and I like exploring seas and lakes. Also I know how to take good underwater pictures and do lots of fixing. I do not have a sea disease. Unfortunately, I do not have any work experience, but I learn fast.

I really want to get this job and I hope I am a serious candidate for this position.
