## COOPERATION FOR INNOVATION AND THE EXCHANGE OF GOOD PRACTICES WOW- WATER IN OUR WORLD

### „WATER IN OUR WORLD“ – WOW

The project “WOW” is a partnership among six European schools from Bulgaria, Portugal, Turkey, Italy, Lithuania and Poland.

The students are from the age of 13 to 18. The project is based on non-formal teaching and learning methods through organizing interactive workshops and activities which provoke critical and creative thinking and encourage entrepreneurship.

Students will take part in solving social and environmental problems, will create travel guides, interactive maps and a dictionary. They will explore water subjects and write articles.

### OUR GOALS:

- Developing skills for critical thinking.
- Using various non-formal teaching methods.
- Solving environmental problems.
- Encouraging entrepreneurial skills.
- Producing a travel guide „Water culture heritage“.
- Sharing culture values.
- Challenging and motivating creative thinking.
